Hi, Sandy:

The one pager on Columbia Falls looks good. RI sampling began last summer (2016), and EPA expects to release a data summary report from Columbia Falls Aluminum Company this month (March 2017). Additional data collection activities are expected this summer. EPA released a draft Community Involvement Plan last week. A public meeting to discuss the results of sampling last year and work planned for this year is tentatively scheduled for April. Please let me know if you have any questions or if you require additional information.

Thank you,

Joe
